## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Kaida et al.

Kaida et al. disclose an amortisseur bar damping device comprising: a rigid support member (201) including a first side and a second side opposite said first side; and a first resilient member (201) disposed to said first side and a second resilient member (202) coupled to said second side.

Regarding claim 13, Kaida et al. disclose said first and second resilient members comprise a substantially rectangular shape.

Regarding claim 14, Kaida et al. disclose said first and second resilient members comprise an elastomer.

Regarding claim 15, Kaida et al. disclose said support member comprises a substantially cubicle shape.

Regarding claim 16, Kaida et al. disclose said support member comprises stainless steel.

### *Allowable Subject Matter*

2. The following is an examiner's statement of reasons for allowance: claims 17-20 and 27 are allowed.

Prior art of record and cited arts fail to disclose a specific arrangement of damping device associate with bars for a damping assembly comprising: a rotor core; a first amortisseur bar extending from said rotor core, a second amortisseur bar extending from said rotor core, said second amortisseur bar substantially parallel said first amortisseur bar, and a damping device contacting said first and second amortisseur bars distal from said rotor core and substantially proximate an enduing, said damping device comprising: a rigid support member including a first side and a second side, said first side opposite; and a first resilient member disposed to the first side and a second resilient member dispose to the second side.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,
